Lesson Plan Checklist

Teacher:	*Knute Brewer*
Date:	*8/10/2026*
Subject:	*Health/Physical PE*
Unit:	*Unit 1 Personal Health and Wellness*
Period/Rotation	Period 1 - Period 1

Standard(s) Students will understand essential health concepts in order to transfer knowledge into healthy actions for life.	*What should students know (Knowledge)* *Students should gain the concrete concept of health metrics and how it connects to healthy lifestyles and habits.*	*What should students be able to do (Skills)* *Students should be able to differentiate between positive and negative health metrics and lifestyles choices*
Lesson Objective:	*Students will be able to identify the components of health metrics and healthy habits*	
Criteria for Success:	1. *Students can identify healthy metrics* 2. *Students can identify and differentiate positive and negative health metrics* 3. *Student can identify which lifestyle factors support health and diminish health.*	

Minutes	**Procedure Followed:**	
5 min…	**Statement of Objectives/Goals:**	*Hello class today we will be cover how to identify the different components of health metrics and health promoting habits.* *By the end of the lesson will will be able to identify what health metrics are, be able to differentiate between positive and negative metrics.* *As well you will be able to identify positive and negative lifestyle factors in concerns to health.*
5 min…	**Review Previously Learned Material:**	*Review previous lesson*
15 Mi…	**Class Starter (I Strategies):**	*Have students turn and talk to a partner. Instruct students to think about previous doctor office visits and share what they remember the doctor measured, asked and recorded.*
20 Mi…	**Learning Activity/Teaching Methods and Transitions (Teach/Explore/Model)**	*Students will be provided a Mock medical intake form that a primary Care physician may use. The students will work with a partner to fill*

		out the form to their best ability. *Students will then pick 2 - 3 health metrics and research the healthy ranges, what the metrics mean and the proper lifestyle changes that can hurt or help this metric.* *Students will then provide/present/share their findings with others in the class. The class will then be asked to fill in all missing information for all metrics and corresponding lifestyle factors.*
10 Mi…	**Check for Understanding** **(Observation/assessment)**	*Students will be given a short questionnaire/worksheet requiring them to fill in the missing information for the health metrics previously discussed.*
10 Mi…	**Class Closure Activity:**	*Students will be given a blank sheet with 5 empty lines. The students will be asked to create their own intake form if they were the a family care physician.*
